

"The greatest illusion is that mankind has limitations."

- Robert Monroe

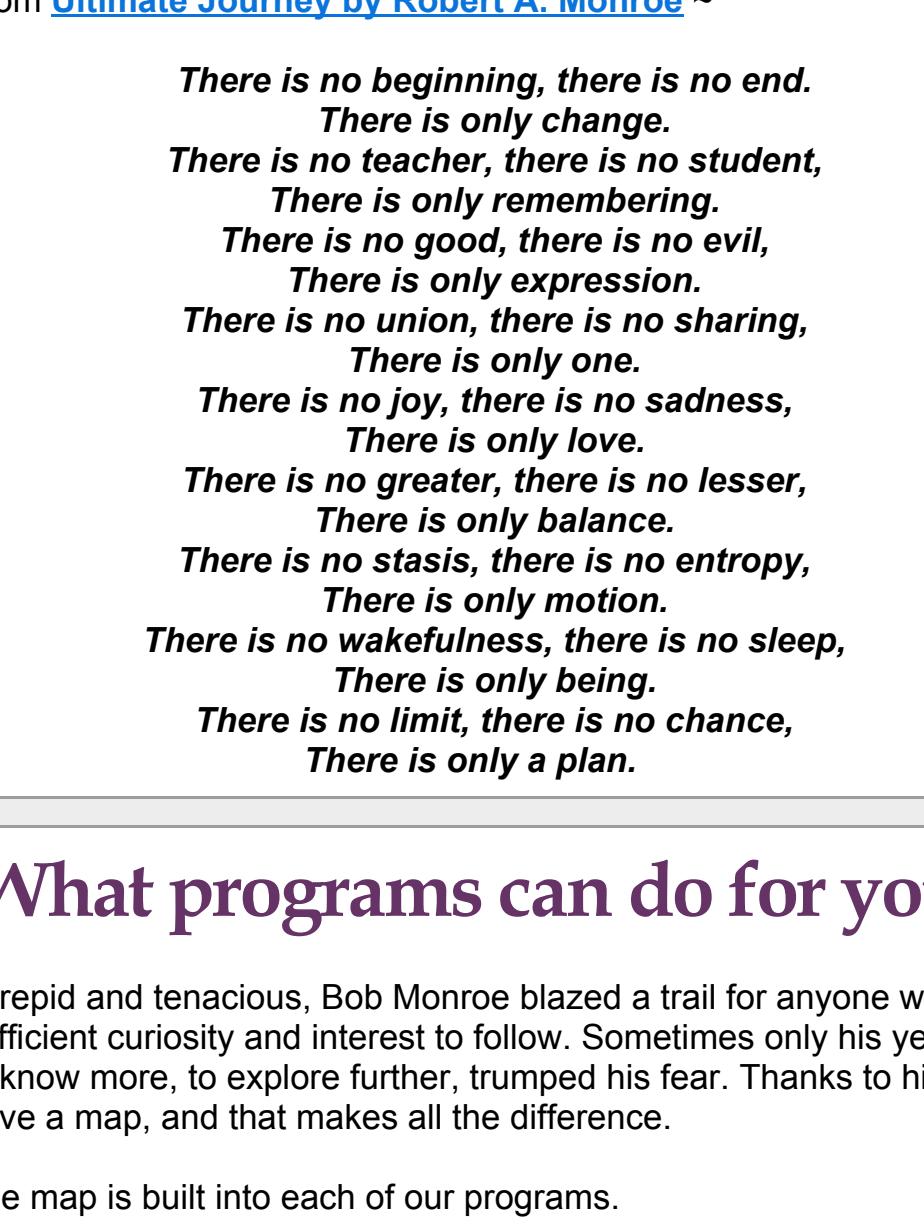

What if this is True?

At one time or another most of us ask the big questions: Who am I really? Why am I here? What is my purpose? What is the nature of reality?

If we're lucky we may get some answers. If we are incredibly fortunate, we may have encountered the writings of Robert Monroe. And if we are among the growing number of questioners who have used the tools and programs developed through Monroe's discoveries to reach into infinity and gain access to the deepest truths, we know ourselves to be – beyond doubt – far more than our physical bodies; much greater than our personal histories.

This is TMI's *raison d'être* – to offer its technologies worldwide; to provide opportunities for everyone who wishes to explore and enhance the uses and understanding of human consciousness. As Bob said, "to offer something of value for our contemporary culture."

While all of the rhetoric in the world cannot compare to experience, we can feel viscerally what is real when we hear it. This brief video of a TMI grad addresses a question that followed his program experience, "What if this is true... What if this is truly the nature of the universe?"

Demystifying the Esoteric

One of Bob's missions was to demystify the esoteric experiences such as he reported in his books. He felt strongly that dogma can block or impair our ability to perceive the true nature of our eternal consciousness.

No words seem to express better than these the essence of Bob's discoveries during his decades of exploration.

*There is no beginning, there is no end.
There is only change.
There is no teacher, there is no student,
There is only remembering.
There is no good, there is no evil,
There is only expression.
There is no union, there is no sharing,
There is only one.
There is no joy, there is no sadness,
There is only love.
There is no greater, there is no lesser,
There is only balance.
There is no stasis, there is no entropy,
There is only motion.
There is no wakefulness, there is no sleep,
There is only being.
There is no limit, there is no chance,
There is only a plan.*

What programs can do for you

Intrepid and tenacious, Bob Monroe blazed a trail for anyone with sufficient curiosity and interest to follow. Sometimes only his yearning to know more, to explore further, trumped his fear. Thanks to him we have a map, and that makes all the difference.

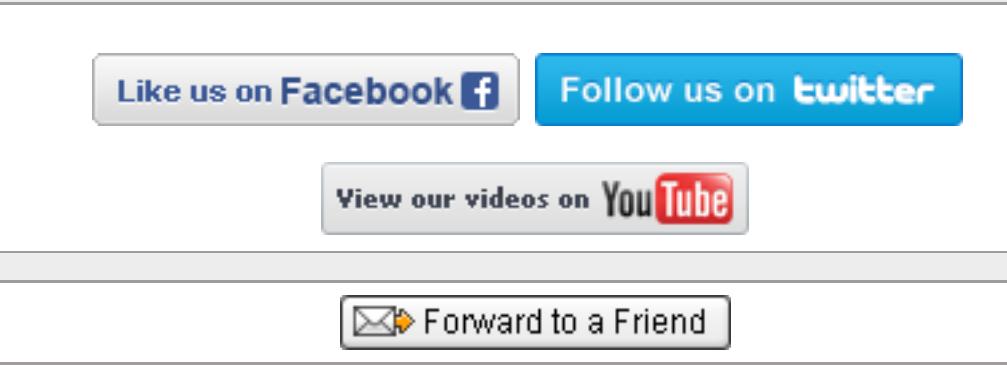

The map is built into each of our programs.

From several studies during and after TMI programs, it was found that participants experienced:

Enhanced mental abilities
Resolution of emotional conflicts
Peak experiences
Inner guidance or "channeling"
Experiences of consciousness outside of time and space
Extreme psychological well-being
Feelings of deep relaxation and inner calm
More life satisfaction

Bridge to Paradise

A miracle came to our world in the closing years of the 20th century, as scientists and researchers from different countries began to use technical equipment to get in touch with other worlds—the worlds of spirit. Remarkably, those spirit worlds began to get in touch with us through our TVs, radios, telephones, computers, and other technical devices. Mark Macy, a pioneer in this young field of research called instrumental transcommunication, or ITC, shares his vision of an extraordinary world in *Bridge to Paradise*.
